Sintana Energy Inc.

Notes to Condensed Interim Consolidated Financial Statements Three Months Ended March 31, 2021 (Expressed in Canadian Dollars, Unless Otherwise Stated) (Unaudited)

1. Nature of operations and going concern

Sintana Energy Inc. ("Sintana" or the "Company") is a public Canadian oil and gas exploration company listed on the TSX Venture Exchange ("TSXV"), with offices in Toronto, Canada; and Dallas, Texas. The trading symbol of the Company is SEI. The Company is targeting assets in Colombia's Magdalena Basin. It's exploration strategy is to acquire, explore, develop and produce superior quality assets with significant reserve potential. The primary office of the Company is located at The Canadian Venture Building, 82 Richmond Street East, Toronto, Ontario, Canada, M5C 1P1.

Sintana is at an early stage of development and as is common with similar exploration companies, it raises financing for its property acquisition and exploration activities. Sintana has not incurred any operating income in the current and prior years. For the three months ended March 31, 2021, the Company incurred a loss of \$369,142 (three months ended March 31, 2020 - \$956,597) and had an accumulated deficit of \$90,945,119 (December 31, 2020 - \$90,575,977). Sintana had a working capital deficit of \$6,282,278 at March 31, 2021 (December 31, 2020 - working capital deficit of \$6,057,343).

These unaudited condensed interim consolidated financial statements have been prepared on a basis which contemplates that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of business. Accordingly, they do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern. The certainty of funding future exploration expenditures and availability of additional financing sources cannot be assured at this time. These material uncertainties may cast significant doubt on the Company's ability to continue as a going concern and, accordingly, the ultimate use of accounting principles applicable to a going concern. The Company's ability to continue as a going concern is dependent upon obtaining additional financing and eventually achieving profitable production. These unaudited condensed interim consolidated financial statements do not reflect any adjustments to the carrying values of assets and liabilities and the reported expenses and statement of financial position classifications that would be necessary should the going concern assumption be inappropriate.

In March 2020, the World Health Organization declared coronavirus (COVID-19) a global pandemic. This contagious disease outbreak, which has continued to spread, has adversely affected workforces, economies, and financial markets globally, leading to an economic downturn. It is not possible for the Company to predict the duration or magnitude of the adverse results of the outbreak and its effects on the Company's business and / or ability to raise funds. To date, our operations have remained stable but there can be no assurance that our ability to continue to operate our business will not be materially and adversely impacted, in particular to the extent that aspects of our operations which rely on services provided by third parties fail to perform as expected.

2. Significant accounting policies

Statement of compliance

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). These unaudited condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by the IASB.

The policies applied in these unaudited condensed interim consolidated financial statements are based on IFRSs issued and outstanding as of May 25, 2021, the date the Board of Directors approved these unaudited condensed interim consolidated financial statements. The same accounting policies and methods of computation are followed in these unaudited condensed interim consolidated financial statements as compared with the most recent annual audited consolidated financial statements as at and for the year ended December 31, 2020. Any subsequent changes to IFRS that are given effect in the Company's annual audited consolidated financial statements for the year ending December 31, 2021 could result in restatement of these unaudited condensed interim consolidated financial statements.

A provision related to the dispute (refer to note 15) is included in accounts payable and accrued liabilities. The Company assesses the probability each year for the likelihood of payment of the alleged liability. Management estimates that the probability of paying the alleged liability will decrease by 15% of the original accrued amount each year.

During the three months ended March 31, 2021, the Company recorded a gain of accounts payable of \$22,002 (US\$17,496) (three months ended March 31, 2020 - \$24,823 (US\$17,496)) in the unaudited condensed interim consolidated statements of loss and comprehensive loss related to the decrease in the probability of the provision being paid.

Vesting of the stock options is as follows: one-third on day of grant, one-third after one year and one-third after two years. The fair value of each option was estimated on the date of grant using the Black-Scholes option pricing model with the following assumptions: expected dividend yield of 0%; expected volatility of 141.08%; risk-free interest rate of 1.34%; and an expected average life of 5 years. The options were valued at \$261,023. \$18,087 (three months ended March 31, 2020 - \$108,819) was expensed to salaries and benefits (share-based compensation) and as an addition to contributed surplus during the three months ended March 31, 2021.

		2.83	10,625,000	8,516,667	2,108,333

9. RSUs

The grant date fair value of RSUs equals the fair market value of the corresponding shares at the grant date. The fair value of these equity-settled awards is recognized as compensation expense with a corresponding increase in contributed surplus. The total amount expensed is recognized over the vesting period, which is the period over which all specified vesting conditions must be satisfied before RSUs are earned and therefore convertible. RSUs are converted into common shares when vested.

On January 30, 2020, the Company granted 200,000 RSUs to four officers of the Company. These RSUs vested on February 11, 2020. In relation to this grant, compensation for the three months ended March 31, 2021, was \$nil (three months ended March 31, 2020 - \$26,000).

During the three months ended March 31, 2021, 1,950,000 RSUs (three months ended March 31, 2020 - 600,000) vested and converted to common shares with a value of \$165,750 (three months ended March 31, 2020 - \$62,000).

The portion of the compensation of RSUs granted in the prior years and vested during the three months ended March 31, 2021, amounted to \$39,000 (three months ended March 31, 2020 - \$4,266).

As of March 31, 2021, there were nil RSU outstanding (December 31, 2020 - 1,950,000 RSUs).

10. Net loss per share

The calculation of basic and diluted loss per share for the three months ended March 31, 2021 was based on the loss attributable to common shareholders of \$369,142 (three months ended March 31, 2020 - loss of \$956,597) and the weighted average number of common shares outstanding of 132,615,831 (three months ended March 31, 2020 - 128,508,092). Diluted loss per share did not include the effect of options, warrants, RSUs and convertible debentures for the three months ended March 31, 2021 and 2020 as they were anti-dilutive or not in the money.
